K.V. Johansen's Blackdog coming out this September is hard to justify as "backlog", but it's a title that's called to me from the first time I laid eyes on it. The cover is another one from Raymond Swanland who has done such good work for James Barclay, Glen Cook, and others. His covers always contain such tangible motion

This sets up the rest of the story, by showing how Attalissa grows outside of the confined areas of the temple and with only the guidance of a good man and the protection of the Blackdog. I loved this story when it first came out in 2011 and since K.V. Johansen has a new book coming out soon, I thought a re-read of this one was timely.

Blackdog had some of the best world building I've ever read. I loved the world, the gods, and the driving story behind the plot. Really an incredibly creative and interesting world.
